

NAME: _____

DR. ANDREW GAINER-DEWAR, CARLETON COLLEGE

MATH100: The Mathematics of Democracy (Fall 2013)

Evaluation: Final Presentation (self)

Please fill this evaluation out thoughtfully and honestly.

For each of the following, please circle the response that best reflects your position.

	Strongly disagree	Weakly disagree	Neutral	Weakly agree	Strongly agree
R1: Our presentation was informative and clearly-focused.	1	2	3	4	5
R2: Our presentation was organized and easy to follow.	1	2	3	4	5
R3: We taught the audience some things they did not already know.	1	2	3	4	5
R4: Our pace was appropriate.	1	2	3	4	5
R5: We did a good job balancing motivation and technical material.	1	2	3	4	5
R6: We were well-rehearsed and in control of the flow of our presentation.	1	2	3	4	5
R7: We were sensitive to the audience (good use of pauses, eye contact, etc.).	1	2	3	4	5
R8: We made effective use of visual aids (projector slides, board work, etc.)	1	2	3	4	5
R9: The mathematical level of our presentation was appropriate for the audience.	1	2	3	4	5
R10: We handled questions well.	1	2	3	4	5
R11: I felt confident in my technical knowledge of the material I presented.	1	2	3	4	5

Q1: Describe something that you did well in your presentation.

Q2: Describe something that you would change about this presentation if you could go through the process again.

Q3: Discuss your practice for this presentation. Did you practice thoroughly, with responsive audiences? If so, how? If not, how will you change this for the next time you do a presentation?

Q4: Assess the overall quality of your presentation. Were you satisfied with the result? Why or why not?
