

PRESENTERS: _____

DR. ANDREW GAINER-DEWAR, CARLETON COLLEGE

MATH100: The Mathematics of Democracy (Fall 2013)

Evaluation: Final Presentation (audience)

Please fill this evaluation out thoughtfully and honestly. Your responses will be *anonymously* forwarded to the speakers.

For each of the following, please circle the response that best reflects your position.

	Strongly disagree	Weakly disagree	Neutral	Weakly agree	Strongly agree
R1: The presentation was informative and clearly-focused.	1	2	3	4	5
R2: The presentation was organized and easy to follow.	1	2	3	4	5
R3: I learned some things I did not already know.	1	2	3	4	5
R4: The speakers' pace was appropriate.	1	2	3	4	5
R5: The speakers did a good job balancing motivation and technical material.	1	2	3	4	5
R6: The speakers were well-rehearsed and in control of the flow of their presentation.	1	2	3	4	5
R7: The speakers were sensitive to the audience (good use of pauses, eye contact, etc.).	1	2	3	4	5
R8: The speakers made effective use of visual aids (projector slides, board work, etc.)	1	2	3	4	5
R9: The mathematical level of the presentation was appropriate for the audience.	1	2	3	4	5
R10: The speakers handled questions well.	1	2	3	4	5

Q1: Describe something the speakers did well.

Q2: Describe something the speakers could change to improve their next presentation.

Q3: What is a question you had about the material?
